## **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The Applicant claims in a fuel cell, an oxygen electrode including a cathode active material having oxygen storage capacity comprising a manganese oxide redox couple which provides for the oxygen storage capacity via reduction/oxidation between two different manganese oxide valency states. Applicant claims a fuel cell including the above described cathode active material.

In the prior art of record, Kaneko et al., U.S. Pat. No. 4,362,791, disclose a redox battery which uses a manganese redox system to provide fuel to the cathode, wherein the manganese redox system is a positive electrolyte comprising an aqueous solution containing manganese ion, with variable valencies.

However, the prior art of record, taken either alone or in combination, fails to disclose or render obvious an oxygen electrode including a cathode active material having oxygen storage capacity comprising a manganese oxide redox couple which provides for the oxygen storage capacity via reduction/oxidation between two different manganese oxide valency states.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Angela J. Martin whose telephone number is 571-272-1288. The examiner can normally be reached on Monday-Friday from 9:00 am to 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Ryan can be reached on 571-272-1292. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
